DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group I, claims 1-19,43,46-48 in the reply filed on 10/27/2005 are acknowledged. Further, claims 20-42 and 44 have been considered and added to the elected claims invention because the claim amendment to independent claims 20, 29, 37 and 44.

Preliminary Amendment

2. The preliminary amendment filed on 10/15/2004 has been entered.

Claim Objections

3. Claims 44 and 48 are objected to because of the following informalities: in claim 44, line 2, it is unclear by what is meant by the claimed limitation "clean"; in claim 48, line 2, there is lack antecedent basis for the claimed limitation "said compression".

Appropriate correction is required.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 5. Claims 20-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Sperry et al. 4,426,023.

Sperry et al. disclose a mixing module (110), which comprises a housing (126,132) having a front end and a rear end and an internal cavity and a capped

Application/Control Number: 10/623,858

Art Unit: 3754

forward end (204), a fluid reception chamber (156) received within the internal cavity and having a rod passageway extending therein and at least one chemical (138) reception passageway opening into rod passageway, a rod (154) received within the rod passageway, a solvent supply means which feeds solvent to a space formed between axially spaced radially extending portions of the capped forward end (col. 4, II. 57-61), a dispenser tip management system (124) comprising the mixing module and further comprising means (116) for physically contacting the forward capped end to clean build up of dispensed material on the forward capped end.

6. Claims 46-47 are rejected under 35 U.S.C. 102(b) as being anticipated by Cherfane 5,180,082.

Cherfane discloses a mixing module (14), which comprises a housing (122) having an interior cavity, a mixing chamber (144) received within the interior cavity of the housing, a rod (150) which is dimensioned for reciprocation in a passageway formed in the housing, at least one chemical inlet port (86) formed in the mixing chamber, and a solvent filling port (64,66) formed in the housing and having a releasable solvent chamber closure cap (213) engaged with the port, the housing further includes a solvent flow feed port (221) which opens into the interior cavity and is spaced from the solvent filling port as seen in Figure 4.

Allowable Subject Matter

7. Claims 1-19,29-45 are allowed.

Page 3

Application/Control Number: 10/623,858

Art Unit: 3754

Claims 22-28,48 are objected to as being dependent upon a rejected base claim, 8. but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Krup 3,231,140 discloses other type of mixing module.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Frederick C. Nicolas whose telephone number is (571)-272-4931. The examiner can normally be reached on Monday - Friday from 9:00 AM to 5:00 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Y. Mar, can be reached on 571-272-4906. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic 16/06

Business Center (EBC) at 866-217-9197 (toll-free).
